Fish and Wildlife Service. Their anthers have been replaced with petals, creating double flowers, with an exceptionally long bloom time in the garden. Each month we will be presenting a topic and will provide information from several of the participating Sandpoint Wellness Council members. I am so glad to read. Thank you for sharing. They out-compete other filter feeders, cleaning the water but leaving it sterile and full of sharp, smelly mussels. According to my parents the first time I was plunked down in the middle of a huckleberry patch all I could say was: "Oh my God, Oh my God". Very easy care requiring no pinching, pruning, or deadheading. The bag and net are an important food source for native bees. Use to add height and form to the garden.
