The differences were obvious: Students in the flipped classroom were more actively engaged and had more time for questions, and the teacher spent more time directly interacting with students in small-group settings. Kids can hop aboard the first expedition to Mars in this new book by astronaut Buzz Aldrin, written with author, physicist and former NASA flight controller Marianne Dyson. But each of these modern developments in fact involved a complex and case-specific. Each podcast is about 15–20 minutes long and includes a transcript. The Miscalculations of Lightning Girl is compulsively readable, discussable, and perfect middle grade reading. Charming and heart-warming. Since scientists from NASA's Phoenix Mars Mission have been studying the history of water

and ice on Mars and exploring the potential for life on the planet. Visit the website to preview all the learning objects in the collection.
