Even if we are successful in encouraging the group members to work hard toward the group goals, groups may fail anyway because they do not gather and share information openly. The contributors share a common vision of research in their particular area and have had an opportunity to debate and clarify their ideas. RajivJhangianiandDr. Requirements engineering Functional specification System integration Verification and validation Design review. The impact of group efficacy and group goals on group task performance. Aretheythesamething?Butthisperspectivefocusesjustontheenvironment Wellens. But given all the problems facing groups, social psychologists and others frequently wonder whether juries are really the best way to make these important decisions and whether the particular composition of a jury influences the likely outcome of its deliberation Lieberman,
