Where hunting is not prohibited, interactions with other cougars, disease and accidents appear to be the three most common causes of death. Common causes of death are disease, people hunters and trappers bears, or other cougars.

Studies show, though, that proper animal husbandry practices substantially reduce the risk of cougar attacks. This is the third time in the 15 years of the Cougar Classic the Gators have won the event. In Washington, domestic sheep, goats, and llamas are more vulnerable to predation than are cattle and horses. Daniel T.

Rather than improving the very slight risk of danger from cougars, the plan is for a person taking such action must have reasonable belief that the cougar poses a threat of serious physical harm, that this harm is imminent, and the action is the only reasonable available means to prevent that harm. In Washington, the one human mortality from a cougar occurred 90 years ago.
