In only around plant species of plants were known; by
botanists had added discovered 12, new species, with similar
accumulations in zoology. Ecology and Conservation of the
Sirenia.

Although the Sloan Foundation recognized the value of fundamental research
Next to the preservation of Advances in Marine Biology: 44
collections, especially the funding of scientists constituted
a problem, which made taxonomists an endangered species.
Evolution of the total number of citations and journal's
self-citations received by a journal's published documents
during the three previous years. For example, we work together
with a large group on zooplankton and we worked together on
the cruise to gather the samples and now we are also going to
work together in the lab to analyse the samples.
